

A History of Innovation, Born from Sincerity and Creativity

1912	1915	1925	1929	1953	1960
Tokubijo snap buckle requiring no fastening holes	Hayakawa mechanical pencil, later called the Sharp Pencil	Japan's first domestically produced crystal radio	Sharp Dyne AC vacuum-tube radio	Japan's first mass production of TVs	Mass production of color TVs

1962	1963	1964	1966
Ultrasonic washer for cleaning large clocks	Japan's first mass production of microwave ovens	Mass production of standardized solar modules	World's first all-transistor-diode desktop calculator

1969	1970	1972	1973
World's first calculator incorporating LSIs	Double LED capable of simultaneously emitting visible light and near-infrared light	World's first color TV to display the channel number on the screen	Battery-operated compact electronic cash register

1962	1963	1964	1966
	Japan's first home microwave oven with a turntable	Ogami Island Lighthouse equipped with 225W solar cells, the world's largest (at the time) (photo courtesy of Japan Coast Guard)	

1974	1976	1978	1979
Success in reproducing TV images using high-brightness, long-life, thin-film EL elements (product shown is from 1977)	First solar-powered calculator	Refrigerator with the most frequently used compartments located at the top	TV-in-TV for watching two programs at the same time

1979	1980	1981
Pocket electronic translator for Japanese-English translations	Color TV with built-in VCR	Pocket computer with BASIC programming capability

1981	1982	1983	1984
World's smallest and lightest (at the time) plain paper copier	Personal computer	Laser diode with a proprietary structure that gave it long life	World's first combination PC and TV

1986	1987	1988	1989
3-in-1 facsimile with fax, copier, and phone functions	3-inch color TFT LCD TV	Electronic organizer capable of kanji (Japanese character) display	Word processor equipped with an AI dictionary for converting entire typed clauses into kanji

1989	1990	1991	1992
Industry's first low-power cordless phone with an answering machine function	Industry's first dual-swing refrigerator with doors that opened from both the left and right	World's thinnest (at the time) home facsimile	The 'dream' wall-mounted 8.6-inch LCD TV, an industry-first

1992	1993	1995	1996
Fully automatic washing machine with a hole-less tub to save water and detergent	World's smallest and lightest (at the time) MD headphone player	Zaurus personal information tool, which combined essential business functions in one compact unit	Refrigerator using non-CFC vacuum insulation

1997	1999	2000	2001
High-reflective Super Mobile LCD for the outdoor display of bright color images without the need for a backlight	World's first 1-bit amp utilizing 2.8 MHz high-speed sampling and 7th order delta-sigma modulation	Industry's first camera-equipped mobile phone (for J-Phone)	Plasmacluster air purification technology, which used positive and negative ions to eliminate airborne mold

2004	2005	2006	2008	2009
High-definition LCD TV boasting 3.15 million pixels (the first Karneyama Model TV)	Superheated steam oven for 'roasting' food with water	Full-color digital MFP employing Mycrostoner	One-Seg-compatible mobile phone with a rotating screen (for Vodafone)	108-inch commercial-use LCD monitor, the world's largest (at the time)

2010	2011	2012
Multi-screen display system with the world's thinnest (at the time) system frame width of 6.5 mm	AQUOS Quattron 3D LCD TV incorporating a four-primary-color 3D LCD	GALAPAGOS media tablet

Chronology (Developments at Sharp)

	Developments at Sharp (for Sharp products, see pages Chronology-01 and 02)	World Events
1912	<ul style="list-style-type: none"> • Founder, Tokuji Hayakawa, invents the Tokubijo snap buckle and acquires utility model design patent • Establishes metalworking shop in Matsui-cho, Honjo-ku, Tokyo (now Shin-ohashi, Koto-ku, Tokyo) on September 15 	
1914	<ul style="list-style-type: none"> • Moves to Hayashi-cho, Honjo-ku, Tokyo (now Tachikawa, Sumida-ku, Tokyo) • Installs one-horsepower electric motor 	<ul style="list-style-type: none"> • World War I begins
1915	<ul style="list-style-type: none"> • Invents Hayakawa Mechanical Pencil and begins export to the US and Europe • Establishes Hayakawa Brothers Company 	<ul style="list-style-type: none"> • Telephone line established between New York and San Francisco
1920	<ul style="list-style-type: none"> • Establishes branch factory in Oshiage, Tokyo (now Yahiro, Sumida-ku, Tokyo) 	<ul style="list-style-type: none"> • League of Nations established
1923	<ul style="list-style-type: none"> • All factories destroyed during Great Kanto Earthquake • Dissolves Hayakawa Brothers Company and relocates to Osaka 	<ul style="list-style-type: none"> • Great Kanto Earthquake (magnitude 7.9)
1924	<ul style="list-style-type: none"> • Establishes Hayakawa Metal Laboratories in Tanabe-cho, Higashinari-gun, Osaka Prefecture (now the location of the Head Office) 	
1925	<ul style="list-style-type: none"> • Succeeds in assembling first Japan-made crystal radio set; begins mass production and sales • Establishes sales office in Utsubo, Osaka 	<ul style="list-style-type: none"> • Japan's General Election Law established • Tokyo station begins radio broadcasts in Japan
1926	<ul style="list-style-type: none"> • Begins export of radio sets and components to China, Southeast Asia, India, and South America • Establishes Tokyo office in Hayashi-cho (Honjo-ku, Tokyo), a former site of the company's factory • Adopts assembly-line production for radios 	<ul style="list-style-type: none"> • Japan Broadcasting Corporation (NHK) established
1927	<ul style="list-style-type: none"> • Holds Sharp radio trade fairs in Kyushu, Japan and Shanghai, China 	
1929	<ul style="list-style-type: none"> • Releases AC vacuum-tube radios 	<ul style="list-style-type: none"> • Wall Street Crash; world economy enters the Great Depression
1930	<ul style="list-style-type: none"> • Hayakawa tours Hong Kong • Begins attaching repair warranty notices to radios. Retailers would notify the company of repairs they did by sending back these notices to the company. 	
1931	<ul style="list-style-type: none"> • Establishes sales agency in Hong Kong 	<ul style="list-style-type: none"> • Manchurian Incident
1933		<ul style="list-style-type: none"> • Japan withdraws from League of Nations • New Deal economic programs begin in the US
1934	<ul style="list-style-type: none"> • Establishes Shanghai office • Constructs Hirano Plant in Osaka 	
1935	<ul style="list-style-type: none"> • Hayakawa Metal Industry Institute Co., Ltd. incorporated with capital of 300,000 yen (May 1) 	<ul style="list-style-type: none"> • Youths' School Ordinance issued in Japan
1936	<ul style="list-style-type: none"> • Installs intermittent belt conveyor system • Makes Yokohama Motor Parts Manufacturing a subsidiary • Changes company name to Hayakawa Industrial Co., Ltd. • Establishes branch offices in Taipei and Seoul 	<ul style="list-style-type: none"> • February 26 Incident in Japan
1937	<ul style="list-style-type: none"> • Establishes Hayakawa Commercial School for Youth 	<ul style="list-style-type: none"> • Sino-Japanese War begins
1941		<ul style="list-style-type: none"> • Pacific War begins
1942	<ul style="list-style-type: none"> • Changes company name to Hayakawa Electric Co., Ltd. 	<ul style="list-style-type: none"> • War-time confiscation of metals begins in Japan
1943	<ul style="list-style-type: none"> • Head office building completed 	
1944	<ul style="list-style-type: none"> • Establishes Hayakawa Electric branch factory • Establishes Izumi Plant in Izumi-cho (now Izumi City), Osaka (sold in 1948) 	
1945	<ul style="list-style-type: none"> • Establishes Kyoto Plant in Shimogyo-ku (now Minami-ku), Kyoto (sold in 1947) 	<ul style="list-style-type: none"> • Pacific War ends • United Nations established
1946	<ul style="list-style-type: none"> • Forms labor union • Designated special accounting company 	<ul style="list-style-type: none"> • World's first electronic calculator built at University of Pennsylvania, US • Act on corporations' accounting emergency measures issued in Japan
1947		<ul style="list-style-type: none"> • Invention of the transistor in the US
1948	<ul style="list-style-type: none"> • Establishes Sharp Shoji 	<ul style="list-style-type: none"> • GHQ announces 9 principles for stabilizing the Japanese economy
1949	<ul style="list-style-type: none"> • Released from special accounting company designation • Public stock offering, company listed on Osaka Securities Exchange 	<ul style="list-style-type: none"> • Dodge Line implemented in Japan • Single exchange rate of US1\$ = 360 yen implemented • Founding of People's Republic of China

	Developments at Sharp	World Events
1950	<ul style="list-style-type: none"> • Plant to employ the visually impaired incorporated as Tokusen Metal Limited Partnership • Establishes business principles called the Five Accumulations of Competency 	<ul style="list-style-type: none"> • Korean War begins; military procurement sparks economic boom • NHK Tokyo begins experimental television broadcasts in Japan
1951	<ul style="list-style-type: none"> • Successfully develops prototype TV set 	<ul style="list-style-type: none"> • Broadcasts by private radio stations begin in Japan • San Francisco Peace Treaty signed
1952	<ul style="list-style-type: none"> • Begins publication of <i>Sharp News</i>, an information magazine for retailers • Special bus begins touring the country to advertise Sharp radios and TVs • Signs cooperative agreement with RCA of the US for TV technology • Forms Sharp Friends Club to strengthen ties between dealers, retailers, and the company 	<ul style="list-style-type: none"> • Japan joins IMF (International Monetary Fund) and IBRD (International Bank for Reconstruction and Development)
1953	<ul style="list-style-type: none"> • Begins full-scale mass production of first Japan-made TV sets (TV3-14T) 	<ul style="list-style-type: none"> • Full-scale TV broadcasts begin in Japan • 1953 dubbed the start of Japan's electric appliance age
1954	<ul style="list-style-type: none"> • Constructs TV plant at the head office (now Tanabe Plant, Osaka) and installs endless conveyor system • Opens Ikutoku-en nursery school 	<ul style="list-style-type: none"> • Bell Laboratories of the US develops solar cells
1955	<ul style="list-style-type: none"> • Formulates in-house standards (HS: Hayakawa Standards) 	<ul style="list-style-type: none"> • Japan joins GATT (General Agreement on Tariffs and Trade)
1956	<ul style="list-style-type: none"> • Spins off sales division to establish Sharp Electric Co. • Constructs new building for Osaka Head Office • Constructs new building for Tokyo Branch in Taito-ku, Tokyo 	<ul style="list-style-type: none"> • Japan joins United Nations • Japan economic white paper states "Japan is no longer in a post-war period"
1957	<ul style="list-style-type: none"> • Establishes Tokyo Sharp Geppan to sell Sharp products on monthly installment system; Sharp Geppan companies subsequently established nationwide • Constructs Hirano Plant No. 2 in Higashi-sumiyoshi-ku (now Hirano-ku), Osaka • Releases transistor radios • Establishes laboratory 	<ul style="list-style-type: none"> • USSR launches Sputnik 1, the world's first artificial satellite • Act on temporary measures for promoting electronics industry issued in Japan
1958	<ul style="list-style-type: none"> • Begins publication of <i>Mado</i>, an in-house magazine • Sharp Electric merges with Hayakawa Dengyo, a company that sold fluorescent lighting • Sharp Shoji and QRK Shokai (exclusive Sharp dealer) combined to form Osaka Sharp Sales (regional sales companies subsequently established) • Institutes Sharp Friend Shop system; Sharp Friend Shop Associations formed nationwide 	<ul style="list-style-type: none"> • EEC (European Economic Community) inaugurated • Japan issues 10,000-yen bill • Texas Instruments of the US develops ICs (integrated circuits)
1959	<ul style="list-style-type: none"> • Begins R&D on solar cells • Constructs Yao Plant as company moves to become a comprehensive consumer electronics manufacturer • Expands sales network in Southeast Asia by signing dealer agreements with Sampo Electronics and Roxy Electric 	<ul style="list-style-type: none"> • Metric system adopted in Japan • Wedding of the Crown Prince and Princess in Japan
1960	<ul style="list-style-type: none"> • Constructs Yamato-koriyama Plant No. 1 (now Nara Plant) • Establishes corporate health insurance association • Introduces IBM computer at the head office 	<ul style="list-style-type: none"> • Color TV broadcasts begin in Japan • Japanese cabinet announces policy of doubling national income
1961	<ul style="list-style-type: none"> • Establishes Central Research Laboratories 	
1962	<ul style="list-style-type: none"> • Establishes Sharp Electronics Corporation (SEC) in the US, the company's first overseas sales base • Begins mass production of commercial-use microwave ovens (R-10) • Osaka Municipal Hayakawa Welfare Hall completed with construction funds donated by President Hayakawa • Builds shrine on Mt. Koya for holding Buddhist memorial services for deceased employees 	<ul style="list-style-type: none"> • Cuban missile crisis • Number of television subscribers in Japan reaches 10 million people
1963	<ul style="list-style-type: none"> • Establishes service company in Osaka • Company reorganized into three divisions: radio, home appliances, and industrial equipment • Establishes Sharp Tokyo Product Center 	<ul style="list-style-type: none"> • Japan acquires GATT Article 11 status • US President Kennedy assassinated • First satellite broadcast between Japan and the US
1964	<ul style="list-style-type: none"> • Release world's first all-transistor diode electronic desktop calculator (CS-10A) as company moves to become a comprehensive electronics manufacturer • Builds mass-production line for solar cells 	<ul style="list-style-type: none"> • Japan acquires IMF Article 8 status and joins OECD • Tokaido Shinkansen bullet train begins operations in Japan • Summer Olympics held in Tokyo
1965	<ul style="list-style-type: none"> • Institutes 70 Strategy to strengthen distribution system • Launches ATOM Unit program 	
1966	<ul style="list-style-type: none"> • Releases home-use microwave oven with a turntable (R-600) 	<ul style="list-style-type: none"> • Population of Japan exceeds 100 million
1967	<ul style="list-style-type: none"> • Launches 55 Campaign that included Sharp technology fairs to celebrate 55th anniversary of company's founding • Constructs Hiroshima Plant to mass produce transistor radios • Sharp Electric absorbed into Hayakawa Electric • Sharp Electronic Sales Okinawa Corporation established in Okinawa, then under US rule 	<ul style="list-style-type: none"> • Kennedy Round agreements to liberalize trade signed • EC (European Community) established • Basic Act for Environmental Pollution Control enacted in Japan • ASEAN (Association of Southeast Asian Nations) formed
1968	<ul style="list-style-type: none"> • Establishes Hayakawa Electric Europe GmbH (HEEG) (name changed to Sharp Electronics [Europe] GmbH [SEEG] in 1970) as sales base in West Germany • Holds first Basic Management Policy Conference • Constructs Tochigi Plant to mass produce color TVs • Establishes Business Cooperation Centers nationwide 	<ul style="list-style-type: none"> • Consumers Protection Basic Act enacted in Japan • Air Pollution Control Act enacted in Japan • Prototype LCD produced at RCA in the US • Anti-dumping lawsuit filed by US Electronics Industry Association against Japanese TV manufacturers • Japan's GNP becomes No. 2 among free nations of the world

	Developments at Sharp	World Events
1969	<ul style="list-style-type: none"> • Launches MI campaign • Signs cooperative technical agreement with North American Rockwell Corporation on ICs • Osaka Municipal Abeno Youth Center completed with construction funds donated by President Hayakawa • Establishes office equipment sales companies in Tokyo, Osaka, and Nagoya • Establishes Sharp Electronics (U.K.) Ltd. (SUK) as sales base in the UK • Develops world's first GND (gallium arsenic negative-resistance light-emitting diode) semiconductor • Releases world's first electronic calculator incorporating MOS LSIs (QT-8D) 	<ul style="list-style-type: none"> • US Apollo 11 lands on the moon and man walks on its surface for the first time
1970	<ul style="list-style-type: none"> • Changes company name to Sharp Corporation • Establishes Sharp Precision Machinery Co., Ltd. (name changed to Sharp Manufacturing Systems Corporation in 1994) • Senior Executive Director Akira Saeki named president, President Tokuji Hayakawa named chairman • Constructs Advanced Development and Planning Center • Implements business group system • Releases gallium arsenide double LED 	<ul style="list-style-type: none"> • Japan World Expo '70 held in Senri, Osaka (77 countries participate and visitors number 64.21 million in 6 months)
1971	<ul style="list-style-type: none"> • Establishes Sharp Corporation of Australia Pty. Ltd. (SCA) as sales base in Australia 	<ul style="list-style-type: none"> • President Nixon announces economic policies to defend the US dollar ("Nixon Shock") • Exchange rate adjusted to 308 yen per US dollar under the Smithsonian Agreement (yen adjusted by 16.88%) • US trade deficit for the first time in 80 years
1972	<ul style="list-style-type: none"> • Releases company's first copier • Launches new sales company system (regional sales companies consolidated into 16 companies by region) • Launches S734 Project for developing COS calculators • Adds Sharp Grand Award to annual employee commendation • Opens Consumer Information Centers at nine service companies throughout Japan • Establishes Sharp System Products Co., Ltd. • Forms Sharp Employee Stockholder Association 	<ul style="list-style-type: none"> • Winter Olympics in Sapporo • US returns Okinawa to Japan • Japan-China diplomatic relations restored • US-China joint communiqué announced
1973	<ul style="list-style-type: none"> • Establishes Business Philosophy, Business Creed, and Basic Business Principles • Sets up employee savings scheme • Establishes Sharp Data Corporation (SDA) (name changed to Sharp Korea Corporation [SKC] in 1984) as manufacturing base in Korea • Begins production of C-MOS LSIs; releases pocket-sized COS calculator with LCD 	<ul style="list-style-type: none"> • Japan shifts the yen to floating exchange rate system • First oil crisis; OPEC raises crude oil prices and declares production cuts; shortage of goods and soaring prices
1974	<ul style="list-style-type: none"> • Holds first company-wide QC circle convention • Constructs Sharp Tokyo Building • Establishes Sharp Electronics of Canada Ltd. (SECL) as sales base in Canada • Establishes Sharp-Roxy Corporation (M) Sdn. Bhd. (SRC) as manufacturing base in Malaysia (name changed to S&O Electronics [Malaysia] Sdn. Bhd. [SOEM] in 2008) • Launches ELM products • Formulates company-wide quality standards (SS: Sharp Corporation Standards) 	<ul style="list-style-type: none"> • Large-Scale Retail Store Law enacted in Japan • Japanese economy registers negative growth for the first time since WWII
1975	<ul style="list-style-type: none"> • Begins mass production of color TVs at SCA in Australia 	<ul style="list-style-type: none"> • Vietnam War ends
1976	<ul style="list-style-type: none"> • Launches New Life product strategy • Sharp solar cells installed on Ume, Japan's first operational ionosphere-observing satellite 	<ul style="list-style-type: none"> • Japan's trade surplus increases; voluntary export restraints demanded by the US and Europe
1977	<ul style="list-style-type: none"> • Establishes Sharp System Service • Launches Sharp Taskforce (<i>Kin-Pro</i>) system • Tokusen Metal Limited Partnership certified as special subsidiary of Sharp Corporation 	<ul style="list-style-type: none"> • Japan voluntarily restrains exports of color TVs to the US
1978		<ul style="list-style-type: none"> • Japan-China Treaty of Peace and Friendship signed
1979	<ul style="list-style-type: none"> • Establishes Sharp Electronics (Svenska) AB (SES) (name changed to Sharp Electronics [Nordic] AB [SEN] in 2000) as sales base in Sweden • Sharp Manufacturing Company of America (SMCA) starts operations as production division of SEC • Establishes SBC Software 	<ul style="list-style-type: none"> • Diplomatic relations restored between China and the US for the first time in 30 years (US breaks diplomatic relations with Taiwan) • Second oil crisis • 5th G7 Summit held in Tokyo
1980	<ul style="list-style-type: none"> • Announces one-trillion yen initiative • Forms Sharp Fellowship Society • Launches New Business product strategy under a "new business style" concept • Chairman Tokuji Hayakawa passes away • Establishes Sharp Business Co., Ltd. • Establishes Sharp-Roxy Electronics Corporation (M) Sdn. Bhd. (SREC) as manufacturing base in Malaysia (merged into SMM in 2009) 	<ul style="list-style-type: none"> • Iran-Iraq War begins • Revision to the foreign exchange law in Japan; liberalization of capital transactions
1981	<ul style="list-style-type: none"> • Establishes Sharp Consumer Electronics Co., Ltd. • Constructs Shinjo Plant (now Katsuragi Plant) in Nara • Constructs mass-production plant for EL displays (starts full-scale operations in 1983) • Develops laser diode with VSIS architecture 	<ul style="list-style-type: none"> • Trade dispute over automobiles between Japan and the US; trade friction intensifies
1982	<ul style="list-style-type: none"> • Establishes Sharp (Phils.) Corporation (SPC) as manufacturing base in the Philippines • Establishes Sharp Finance Corporation 	<ul style="list-style-type: none"> • CDs (compact disks) go on sale

	Developments at Sharp	World Events
1982	<ul style="list-style-type: none"> • Establishes Sharp-ECD Solar Co., Ltd. as joint venture with Energy Conversion Devices Inc. of the US • Sharp multinet system goes online • Tokusen Metal Limited Partnership reorganized into Sharp Tokusen Industry Co. 	
1983	<ul style="list-style-type: none"> • Establishes Sharp Engineering Corporation • EL displays installed on the Space Shuttle 	<ul style="list-style-type: none"> • Game console released by toy manufacturer become huge hit in Japan
1984		
1985	<ul style="list-style-type: none"> • Sharp Manufacturing Company of U.K. (SUKM) starts operations as production division of SUK • Holds comprehensive technology exhibitions in Beijing and Shanghai • Establishes Sharp-Roxy Appliances Corporation (M) Sdn. Bhd. (SRAC) as manufacturing base in Malaysia (ceases operations in 2002) • Establishes Sharp-Roxy Sales & Service Company (M) Sdn. Bhd. (SRSSC) as sales base in Malaysia • Establishes Creative Lifestyle Focus Center • Constructs Fukuyama Plant • Establishes Sharp Trading Corporation • Builds prototype of 3-inch color LCD TV 	<ul style="list-style-type: none"> • Mikhail Gorbachev elected General Secretary of the Communist Party of the USSR • NTT (Nippon Telegraph and Telephone Corporation) and JT (Japan Tobacco Inc.) launched as public corporations • Yen rises rapidly following the Plaza Accord
1986	<ul style="list-style-type: none"> • Builds "futuristic electric house" on the grounds of Yao Plant • Establishes Sharp Electronics (Schweiz) AG (SEZ) as sales base in Switzerland • Establishes Sharp Electronics GmbH (SEA) as sales base in Austria (merges with SEEG in 2004 to become SEEG Austria Branch) • Establishes Sharp-Roxy Sales (Singapore) Pte., Ltd. (SRS) as sales base in Singapore • Establishes Sharp Electrónica España S.A. (SEES) as manufacturing and sales base in Spain (ceases manufacturing in 2011) • Senior Executive Director Haruo Tsuji named president, President Akira Saeki named chairman • Establishes Sharp Electronics Taiwan Co., Ltd. (SET) as manufacturing base in Taiwan (liquidated in 2010) • Launches Liquid Crystal Display Division 	<ul style="list-style-type: none"> • Space Shuttle Challenger explodes after takeoff, killing all 7 crew members • Publication of the Maekawa Report calling for expanding domestic demand in Japan • Meltdown at Chernobyl nuclear power plant in the USSR releases radioactivity across Europe • US-Japan Semiconductor Agreement signed • US increases net foreign debt
1987	<ul style="list-style-type: none"> • Establishes Sharp Electronics Sales Corporation • Establishes Sharp Appliances (Thailand) Limited (SATL) as manufacturing base in Thailand • Establishes Sharp Electronics (Singapore) Pte., Ltd. (SESL) as kit export base in Singapore • Chairman Akira Saeki appointed as corporate advisor • Establishes Sharp-Roxy (Hong Kong) Ltd. (SRH) as sales base in Hong Kong 	<ul style="list-style-type: none"> • Dow Jones Industrial Average drops 22.6% on 'Black Monday', the largest one-day percentage decline ever • Land prices skyrocket in Tokyo area
1988	<ul style="list-style-type: none"> • The <i>Sharp Columbus</i>, a promotional event boat, cruises the waters of Japan for 18 months • Establishes Sharp Corporation of New Zealand Ltd. (SCNZ) as sales base in New Zealand • Establishes Sharp Precision Manufacturing (U.K.) Ltd. (SPM) as manufacturing base in the UK (liquidated in 2010) • Introduces in-house recruiting system • Develops hologram laser unit jointly with Philips International B.V. of the Netherlands • Proclaims goal of becoming comprehensive electronics manufacturer on the strength of its optoelectronics technologies • Develops world's first 14-inch color TFT LCD 	<ul style="list-style-type: none"> • Iran-Iraq War ends after 8 years
1989	<ul style="list-style-type: none"> • Establishes Sharp Manufacturing France S.A. (SMF) as manufacturing base in France • Establishes Sharp Thebnakorn Co., Ltd. (STCL) as sales base in Thailand (name changed to Sharp Thai Co., Ltd. [STCL] in 2007) • Establishes Kalyani Sharp India Limited (KSIL) as manufacturing base in India (name changed to Sharp India Limited [SIL] in 2005) • Establishes Sharp Manufacturing Corporation (M) Sdn. Bhd. (SMM) as manufacturing base in Malaysia 	<ul style="list-style-type: none"> • US and Japan launch Structural Impediments Initiative • Fall of the Berlin Wall • Malta Summit between leaders of the US and the USSR brings Cold War to an end • Tokyo Stock Exchange average closes at a record high
1990	<ul style="list-style-type: none"> • Establishes Sharp Corporation (Taiwan) (SCOT) as sales base in Taiwan • Establishes Sharp Laboratories of Europe, Ltd. (SLE) as base to conduct basic research in the UK • Launches Liquid Crystal Display Group • SUKM receives the UK Queen's Award for Export and Technology • Establishes Sharp International Finance (U.K.) Plc. (SIF) as financial subsidiary in the UK • Establishes Sharp Burotype Machines S.A. (SBM) as sales base in France (name changed to Sharp Electronics France S.A. [SEF] in 1991) • Establishes Sharp Electronics (Italia) S.p.A. (SEIS) as sales base in Italy • Company-wide small-group activities renamed Sharp CATS (Creative Action Teams) • Establishes childcare leave system • Achieves non-consolidated net sales of 1 trillion yen (fiscal 1989) 	<ul style="list-style-type: none"> • USSR amends constitution; Gorbachev becomes first USSR president • Iraq invades Kuwait, resulting in the Gulf Crisis • East and West Germany reunite for the first time in 44 years • Volume controls on Japan's real estate investment lead to the bursting of the bubble economy
1991	<ul style="list-style-type: none"> • Establishes Sharp Electronics Benelux B.V. as sales base in the Netherlands • Begins production at color TFT LCD plant (NF-1 production line) at Advanced Development and Planning Center 	<ul style="list-style-type: none"> • Gulf War begins as multinational forces invade Iraq • End of 69-year history of USSR; establishment of CIS

	Developments at Sharp	World Events
1992	<ul style="list-style-type: none"> Establishes Sharp Electronic Components (Taiwan) Corporation (SECT) as electronic components sales base, and Sharp Technology (Taiwan) Co., Ltd. (STT) as IC design and development base (STT liquidated in 2007) Ties up with Intel Corporation in flash memory business Establishes Sharp Live Electronics Sales Corporation Establishes Shanghai Sharp Air-Conditioning Systems Co., Ltd. (SSAC) as manufacturing base in China (name changed to Shanghai Sharp Electronics Co., Ltd. [SSEC] in 1994) Constructs Makuhari Building Establishes Sharp Thebnakorn Manufacturing (Thailand) (STTM) as production division of STCL 	<ul style="list-style-type: none"> At the Earth Summit in Rio de Janeiro, Brazil, the UNFCCC (United Nations Framework Convention on Climate Change) was adopted European currency crisis
1993	<ul style="list-style-type: none"> Begins production at Fukuyama Plant using 0.6 μm process design rules Establishes Sharp Office Equipments (Changshu) Co., Ltd. (SOCC) as manufacturing base in China 	<ul style="list-style-type: none"> Maastricht Treaty creates the EU (European Union)
1994	<ul style="list-style-type: none"> Develops industry's first reflective TFT LCD requiring no backlight Establishes Wuxi Sharp Electronic Components Co., Ltd. (WSEC) as manufacturing base in China Establishes P.T. Sharp Yasonta Indonesia (SYI) as manufacturing base, and P.T. Sharp Yasonta Antarnusa (SYA) as sales base in Indonesia (the two merged to form P.T. Sharp Electronics Indonesia [SEID] in 2005) 	<ul style="list-style-type: none"> Start of residential PV monitoring program in Japan NAFTA (North American Free Trade Agreement) comes into force
1995	<ul style="list-style-type: none"> Establishes Sharp Laboratories of America, Inc. (SLA) as research base in the US Establishes P.T. Sharp Semiconductor Indonesia (SSI) as manufacturing base for semiconductors in Indonesia Begins operations at Mie Plant for mass production of LCDs Establishes Sharp Electronics (Malaysia) Sdn. Bhd. (SEM) as combined R&D base and parts supplier in Malaysia 	<ul style="list-style-type: none"> WTO (World Trade Organization) launched 7.3-magnitude earthquake strikes Osaka-Kobe area in Japan Microsoft Windows® 95 released, spurring PC sales
1996	<ul style="list-style-type: none"> Establishes Nanjing Sharp Electronics Co., Ltd. (NSEC) as manufacturing base in China Official Sharp Internet website opens 	<ul style="list-style-type: none"> Start of the IT bubble A string of bankruptcies of financial companies and bad loans cause financial instability in Japan
1997	<ul style="list-style-type: none"> All Sharp production bases in Japan certified for ISO 14001 Establishes Shanghai Sharp Mold and Manufacturing Systems Co., Ltd. (SSMC) as manufacturing base in China Establishes Sharp Electrónica Mexico S.A. de C.V. (SEMEX) as manufacturing base in Mexico Launches Environmental Protection Group and starts 3G-1R Strategy Introduces integrated distribution system in Japan 	<ul style="list-style-type: none"> Hong Kong reverts to China Asian currency crisis Kyoto Protocol adopted at COP3 (third session of the Conference of the Parties to the UNFCCC)
