Number of Employees	50,253	49,096	43,511	41,898	47,171

- (Notes)
- The amount of leased properties is included in capital investment.
 - Income (loss) per share is calculated by dividing profit (loss) attributable to owners of parent by the weighted average number of shares outstanding during the relevant period. For the fiscal years ended March 31, 2017 and 2018, since the dividend priority of the Class C shares is equal to that of the common shares, the number of Class C shares, after considering the conversion rate to common shares, is included in the number of shares outstanding for purposes of calculating the weighted average number of shares during the relevant period.
 - Number of outstanding shares (common shares) is shown by deducting the treasury shares.
 - Sharp carried out a share consolidation of common shares as well as Class C shares at a ratio of 10 shares to 1 share on October 1, 2017. The figures for the income (loss) per share and net assets per share are calculated on the assumption that Sharp conducts this consolidation at the beginning of the year ended March 31, 2017.
