1. Name of stock acquisition rights

2. Details of stock acquisition rights

(1) Class and number of shares to be issued upon the exercise of the stock acquisition rights

The class of shares to be issued upon the exercise of the stock acquisition rights shall be the common stock of Sharp, and the number of shares to be issued for each stock acquisition right shall be 100 shares.

If Sharp splits its common stock (including allotment of its common stock without compensation; hereinafter the same shall apply) or consolidates its common stock, the number of shares to be issued upon the exercise of stock acquisition rights shall be adjusted in accordance with the following formula; provided that such adjustment shall be made to those that remain unexercised at the time of such adjustment, and any fraction less than one share arising as a result of such adjustment shall be rounded down.

$$\text{Number of shares after adjustment} = \frac{\text{Number of shares before adjustment}}{\text{Ratio of split or consolidation}}$$

If Sharp conducts a merger, company split, share exchange, share transfer or the like that makes it necessary to adjust the number of shares, the number of shares shall be adjusted within a reasonable range, taking into account the conditions of the merger, company split, share exchange, share transfer or the like.

(2) Value of assets to be contributed upon the exercise of stock acquisition rights

The value of assets to be contributed upon the exercise of each stock acquisition rights shall be the value per share to be issued by the exercise of each stock acquisition rights (hereinafter “Exercise Value”) multiplied by the number of shares to be issued upon the exercise of one unit of stock acquisition rights.

The Exercise Value shall be 748.3 yen or the closing price on the Tokyo Stock Exchange on the date of allotment (if no closing price is available on such day, then the closing price on the trading day immediately preceding such day), whichever is higher.

If Sharp splits its common stock or consolidates its common stock after the issuance of stock acquisition rights, the Exercise Value shall be adjusted in accordance with the following formula, and any fraction less than one yen arising as a result of such adjustment shall be rounded up.

$$\text{Exercise Value after adjustment} = \frac{\text{Exercise Value before adjustment}}{\text{Ratio of stock split or stock consolidation}} \times \frac{1}{\text{Ratio of stock split or stock consolidation}}$$

If shares to be offered are issued at a below-market price (including issuance of shares by allotment of shares without contribution and delivery of treasury shares, but excluding exercise of stock acquisition rights (including bonds with stock acquisition rights) and conversion of securities convertible into common stock of Sharp), the Exercise Value shall be adjusted in accordance with the following formula, and any fraction less than one yen arising as a result of such adjustment shall be rounded up.

Exercise Value after adjust- ment	=	Exercise Value before adjust- ment	\times	Number of shares already issued	+	Number of shares newly issued	\times	Amount paid in per share
				Number of shares already issued		Stock price before new issuance		Number of shares newly issued

The “Number of shares already issued” in the above formula shall be the total number of issued shares of Sharp less the number of treasury shares held by Sharp. If Sharp disposes of treasury shares, the “Number of shares newly issued” and the “Stock price before new issuance” shall be respectively replaced to read as the “Number of treasury shares disposed of” and the “Stock price before disposal.”

If Sharp conducts a merger, company split, share exchange, share transfer or the like that makes it necessary to adjust the Exercise Value, the Exercise Value shall be adjusted within a reasonable range, taking into account the conditions of the merger, company split, share exchange, share transfer or the like.

(3) Exercise period of stock acquisition rights

The exercise period shall be from the date (March 10, 2028) on which two (2) years have passed from the date of allotment of the stock acquisition rights to the date (February 10, 2036) on which ten (10) years have passed from the date of grant resolution.
