Super-Efficient Output

The AR-6031NV/6026NV/6023NV/6020NV delivers a fast output of 31/26/23/20 ppm*. The first copy comes out in just 5.2/5.2/6.4/6.4 seconds for A4 and 5.2/5.2/6.5/6.5 seconds for 8 1/2" x 11", saving valuable time when you’re doing multiple short-run jobs.

* A4 (8 1/2" x 11"), lang-edge feeding

Network Printing

These MFPs come standard-equipped with network printing, making them ideal for use by small workgroups. They also incorporate Sharp’s original SPLC (Sharp Printer Language with Compression) PDL, which can be upgraded to PCL 6 and PostScript® 3™ emulation to enhance graphics and font capabilities.

Automatic Document Feeding

An optional RSPF (reversing single pass feeder) efficiently feeds in up to 100 sheets of either one- or two-sided originals.

Built-in Stackless Duplex Module

The AR-6031NV/6026NV/6023NV/6020NV can make two-sided printouts using its built-in stackless duplex module. This effectively reduces paper costs and saves filing space. Duplex copying is even more effective when used together with the optional RSPF.

Effective Paper Handling

For large-volume jobs and a wider selection of available paper sizes, these MFPs can accommodate two types of extra trays that increase total paper capacity to 2,100 sheets (AR-6031NV/6026NV) or 1,850 sheets (AR-6023NV/6020NV). These MFPs can accommodate heavy paper up to 200 g/m²*, expanding the range of possible printing applications.

*106–200 g/m² paper to be fed through multi-bypass tray.

Printing via USB Cable

If you can’t connect to your office network, you can connect the MFP to your PC via a USB cable and print documents. This allows you to print safely without sending your data through the office network. The USB port can be used even while the MFP is connected to the network.

Built-in Stackless Duplex Module

The AR-6031NV/6026NV/6023NV/6020NV can make two-sided printouts using its built-in stackless duplex module. This effectively reduces paper costs and saves filing space. Duplex copying is even more effective when used together with the optional RSPF.

ID Card Copy

The AR-6031NV/6026NV/6023NV/6020NV has a dedicated key for easy copying of both sides of a card (e.g., an ID or credit card) onto a single page.

Rotation Sort*

Every other copy is rotated 90 degrees when delivered to the output tray. This takes the hassle out of sorting copies and comes in handy when you need to print multiple copies.

*Two paper trays must be loaded with the same-sized paper in a different orientation (landscape and portrait).

Other Convenient Features

• 2-in-1/4-in-1 copying
• Margin shift
• Edge/centre erase
