A Size-Conscious Printer
Packed with All the Essentials

Space-Saving Design
With its small footprint* of 424 x 421 mm, this printer will easily find a niche in your SOHO or larger office. Simply place it on a desk, under a counter, or anywhere that space is limited.
* “Footprint” refers to the part directly adjacent to the floor or desk space. The numerical value is for the printer’s base unit only.

Continuous Printing
Don’t worry if the colour toner runs low during a print job. You can simply switch to B/W printing and finish the job seamlessly.

Office Direct Printing*
Print common Microsoft® Office files without using a PC. With this printer, you can print a Word, Excel®, or PowerPoint® file directly from a mobile device, USB drive, or file server.
*The actual printout may look different from what is displayed on the computer screen.

Front USB Port
At the front of the printer is a USB port, which comes in handy when printing directly from a USB drive—an indispensable function for users who want quick machine access without a PC.
**SPECIFICATIONS**

<table>
<thead>
<tr>
<th>General</th>
<th>Network Printer</th>
