Contents selected for your business and private.
Get only and all information you want on the spot.

Business

News

Predefine the categories, and you can get the latest news of your preference anywhere you go. Important news comes with details for better understanding which will help you take one step ahead in your business.

Travel Information and Ticket Reservation

By entering your destination, the best route will be shown, taking the latest traffic information into consideration. Tickets can also be reserved in the same manner, and the itinerary will be automatically recorded in your scheduler.

Map and Location Service

Even at your trip to a new place, you will never be a stranger. Location information and Point of Interest information provided with the town map will help you navigate through the city as if it was your hometown.

Mobile Banking

Aiming toward the era of electronic cash, your PDA will become the nearest and most user friendly branch office of your bank.

Personal

Online Books

You can download electronic texts and read them at your palm. A whole bookshelf can be carried in your lightweight PDA.

Internet Program Guidance

We will provide you selected web pages from the countless sites in the internet according to your interests. Sharp PDAs are capable of auto piloting while you sleep, thus reducing time and cost. And you can browse them off line anytime, anywhere.

Music Distribution

We will distribute not only the hottest hits but also the music that you would like best.

Trend Magazine

Various ranking and trend information will be provided for business persons who want to stay on the cutting edge.

Mobile Community Service

You can keep in touch with the people who share your hobbies and interests no matter where you are. It is a new type of community over the mobile network.

Electronic Ticket Agent

Information and tickets on movies and concerts etc. are made available according to your preference. Your scheduler will be automatically updated.
